Kiosk Intelligence

Remove the guesswork from kiosk cash management. Reduce unnecessary fills, optimize cash reserves, and deliver a more reliable player experience.

HOW IT WORKS

A Smarter Way to Plan Kiosk Cash

Kiosk Intelligence is an AI-driven solution built for casinos to bring clarity and predictability to kiosk cash operations.

Designed by cage operations experts, it analyzes real transaction patterns such as denomination usage, transaction rate, time of day, and historical behavior to forecast cash needs and recommend precise fill amounts. Recommendations align with existing drop schedules or drop timing can be optimized based on actual kiosk usage.

The result: fewer trips to the floor and one reliable source of truth for kiosk cash planning.

WHY IT MATTERS

Fewer Fills, Means More Play.

Kiosk cash management is often reactive and manual. Teams chase falling cash levels, rely on spreadsheets and static thresholds, and deal with last-minute fills that disrupt operations and player flow. Overfilled cassettes create additional work, requiring teams to count and restrap surplus cash.

Kiosk Intelligence replaces this chaos with proactive, data-driven planning.

Proven Impact

Every refill pulls time, employees, and oversight away from other priorities. Kiosk Intelligence turns refill planning into measureable ROI.

➤ **Up to 45% fewer trips**

➤ **Improved kiosk uptime**

➤ **Greater operational efficiency**

Key Benefits

Reclaim Employee Time
Reduce unnecessary trips and refills so teams can focus on core operations, compliance, and guest service.

Optimize Cash
Safely reduce excess floor cash, improve forecasting accuracy, and unlock funds for reinvestment.

Improve Player Experience
Keep kiosks operational, reduce disruptions, and deliver a smoother floor flow that keeps players engaged.

What's Included

Drop & Fill Forecast Reports
Clear recommendations for when to fill each cassette and how much to load for scheduled drops and interim replenishments.

Balance Detail Reporting
Projected cassette balances and expected usage over time to help teams plan ahead with confidence.

Drop Schedule Maintenance
Manage recurring drop schedules, align forecasts to existing plans, or identify better drop timing based on actual usage.
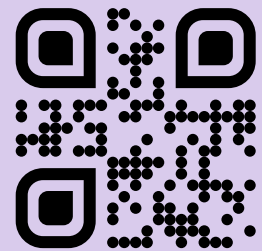

Currency Bag Integration
Integrated with Insight Cash to load and issue cassettes in just two actions, reducing manual steps and errors.

Predict. Automate. Simplify.

Kiosk Intelligence delivers ROI you can rely on.

Casinos see **45% fewer fill trips,** plus gains in uptime and efficiency.

Smarter refills start here. **Book your demo.**

About CCT

CCT is the creator of Casino Insight™, the award-winning platform that powers Insight Cash and Insight Analytics. Trusted by more than 350 casinos worldwide, Casino Insight replaces manual work with streamlined workflows that improve accuracy, compliance, and profitability. Since 2012, CCT has helped casinos automate cage operations, revenue audits, and operational analysis.

Headquartered in Tulsa, Oklahoma, CCT integrates seamlessly with leading casino management, hospitality, and financial systems. The result is measurable ROI that empowers teams to work smarter at every level.
